Day 7 – File Uploads & Submission Lock

Kishlaya (done)

- Clarify file constraints: allowed formats + max size; document in `/docs`.

Shivam

- Use Supabase Storage to:
  - Upload PPT/docs.
  - Save file URL in `submissions`.
- Enforce deadline in backend: after deadline, reject updates.

Debojeet

- Connect file upload UI to backend; handle size/format errors gracefully.
- Show "Submission locked after deadline" state in the UI.

Shivam & Debojeet: You both should discuss beforehand pushing the changes, like who going to push first, so other can pull before start coding – to minimize the merge conflicts unlike yesterday's

Smriti

- Refine all submission- related states in Figma (empty, in progress, submitted, locked).

Harshita

- Confirm submission deadline logic works with operational plan (time zones, communication).
- Make sure everyone joins today's meeting at 1100
